EDUCATION

Rochester Institute of Technology, College of Computing and Information Sciences **Rochester, NY**
Bachelor of Science, Game Design and Development Expected Dec 2026

- Minors in Business Administration and Music Technology
- **Relevant Coursework:** Game Design & Development II, Real-Time Simulations, Rich Media Web App Development, 2D/3D Animation & Asset Production, User Experience Design, Data Structures & Algorithms

SKILLS & INTERESTS

Languages | C#, C++, JavaScript, HTML, CSS, SQL, Python
Tools | GitHub, Unity, Unreal, Jira, ClickUp, Figma, Blender, Autodesk Maya, Substance 3D Painter
Interests | Pandas, Cheese, Cats, Groundhogs, Reading, Music, Sour blue raspberry flavored candy

WORK EXPERIENCE

Changeling VR Remote
Technical Artist **May 2025 – August 2025**

- Created, optimized, textured, and implemented 3D assets and environments for a virtual reality game using Unreal Engine.
- Performed quality assurance, diagnosed technical art issues, and implemented fixes to improve asset functionality and project quality

Freelance Playtesting Remote
Playtester **May 2024 – Present**

- Tested interactive game builds to identify functionality issues, gameplay bugs, and usability concerns.
- Evaluated mechanics, user experience, and feature effectiveness, providing actionable feedback.

PROJECT EXPERIENCE

Energy Manipulation Training | *Developer & Designer* **Jan 2026 – May 2026**

- Developed interactive VR gameplay mechanics in C# using Unity, including projectile interactions, object grabbing, throwing, and collision-based effects.
- Implemented VR hand interactions and controller functionality while troubleshooting Unity VR packages and integration issues.
- Identified and addressed performance bottlenecks by optimizing projectile systems and 3D assets to improve frame rates and maintain a smooth VR experience.

Critter's Cauldron | *Aesthetics Lead & Designer* **Jan 2026 – May 2026**

- Collaborated with a five-person team to develop a mobile potion-making party game, contributing to gameplay design, organizational tasks, sound design, creative assets, and quality assurance.
- Designed core gameplay mechanics, UI layouts, and interactive assets with a focus on usability and mobile gameplay.
- Led aesthetics and supported QA through recurring playtests, identifying gameplay and usability issues, and using player feedback to guide subsequent development iterations.
- Collaborated across design and art responsibilities to adapt features and assets to evolving project requirements.
